

FOCUS

Site Register

Site Register reports key information about contaminated sites

Background

The Model Toxics Control Act requires Ecology to provide timely information and opportunities for participation in the cleanup of contaminated sites. Chapter 173-340 WAC, the regulation defining the cleanup process, established the Site Register.

Information in the Site Register

The Site Register is published bi-monthly to inform the public of:

- Activities related to the study and cleanup of contaminated sites
- Public meetings/hearings and public comment periods
- Discussion or negotiations of legal agreements
- Availability of cleanup reports
- Hazard ranking of sites

Entries in the Site Register include a short description of the site and an Ecology contact person.

Do you want to receive the Site Register?

If you would like to regularly receive the Site Register, please contact:
